## PROGRAM FOCUS

Choctaw Development Fund stimulates community, economic and small business development through job creation and economic growth within the boundaries of the Choctaw Nation of Oklahoma to promote successful, productive and self-sufficient lifestyles of tribal members and their communities. Funding for qualifying projects is limited, and all proposals must undergo an application review process before initial recommendation is made to the CDF Review Committee.

### THE PROGRAM INCLUDES THREE FOCUS AREAS:

- 1. Small Business:** The Small Business Forgivable Loan Program focuses on evaluating the needs of qualified Choctaw tribal entrepreneurs (Chahtapreneurs) and provides assistance to begin or grow their small businesses successfully. Chahtapreneurs registered with Choctaw Small Business Development submit applications.
- 2. Community Development:** Community Development focuses on assisting communities with projects that improve the quality of life and raise the standard of living for residents. Communities and municipalities submit applications for partnership or assistance with community development projects.
- 3. Economic Development:** Economic Development focuses on assisting communities with business development, recruitment, retention and expansion efforts to grow economies and create jobs. Businesses, municipalities or other development organizations, such as the Oklahoma Department of Commerce, submit applications seeking partnership and support in providing recruitment incentives to bring businesses to the area.

## GOALS

1. Address projects not otherwise addressed by grant opportunities or programs offered by the Nation.
2. Address initiatives that grow economies by promoting and/or incentivizing business attraction, retention and expansion.
3. Assist Choctaw tribal members with starting and developing small businesses.
4. Create jobs and economic opportunities.
5. Provide continued education and networking opportunities to tribal members to ensure the success of small businesses.
6. Assist and guide new businesses to meet state and local regulations and requirements.

## OUTCOMES

The fund will achieve these goals by working closely with local leaders and residents to attract industry and retail, increase tourism, assist existing businesses with expansion and provide tribal business support for Chahtapreneurs. Tribal leadership is passionate about creating jobs, improving outcomes, enhancing the economic vitality and sustainability of communities and helping an array of businesses thrive to encourage the development of a diverse economy.
